

TECHNICAL SPECIFICATIONS

ARTICLE TORONTO

Article's description:

- Thickness: 1.3 / 1.6 mm.
- Average hide size: 50 / 55 sqft.
- Cow skin, European origin, Chrome tanning without lime-yard working.
- Leather dyed with mineral colours.
- Natural article not submitted to finishing and colour fixing. For this reason, some colours (like red colours) could lose colour.
- Applications: Domestic and low traffic contract.
- Flammability: Cigarette and Match: Pass; Crib 5: On Request.

FASTNESS TESTS

It is technically impossible to submit the article to the following tests:

- Light fastness
- Rubbing fastness

Toronto, being natural cow hide, does not have light resistance and so if exposed to natural light for long periods, can lighten over time. Also, it is possible that the hair can come off a little throughout time.

This is a very natural product and there will be natural markings, bald spots and color inconsistency can sometimes be seen throughout the hides.

REACH: The chemicals used for our articles don't contain substances present in "SVHC LIST" in quantities higher than 0.1%.
