EMBOSSING IS

Embossing (also called plate printing) is where designs from engraved plates are embossed onto the surface of the hides using heat and pressure. With some patterns, a roller is used.

Designs can be produced on a wide selection of colours and finishes.

THINGS TO KNOW:

- Panel sizes are required in order to produce in the most suitable way
- With standard embossed hides, there are 4 usable panels. However, based on your panel requirements, we can change the layout of the embossing plate
- Choose between STOCK or MADE-TO-ORDER embossing
- Designs can be produced on a wide selection of colours and finishes
- Aniline and semi-aniline leathers are most suitable for embossing
- Lead time is 1-2 weeks for STOCK embossed products
- Lead time is 2-4 weeks upon approval for all MADE-TO-ORDER embossed with in-stock leather
- For custom colours, allow an additional 4-5 weeks to produce leather

CONSIDERATIONS:

- Junction lines will be visible on the hides
- Plate dimensions are typically 135cm x 95cm
- Panel dimensions are approximately 80cm x 70cm

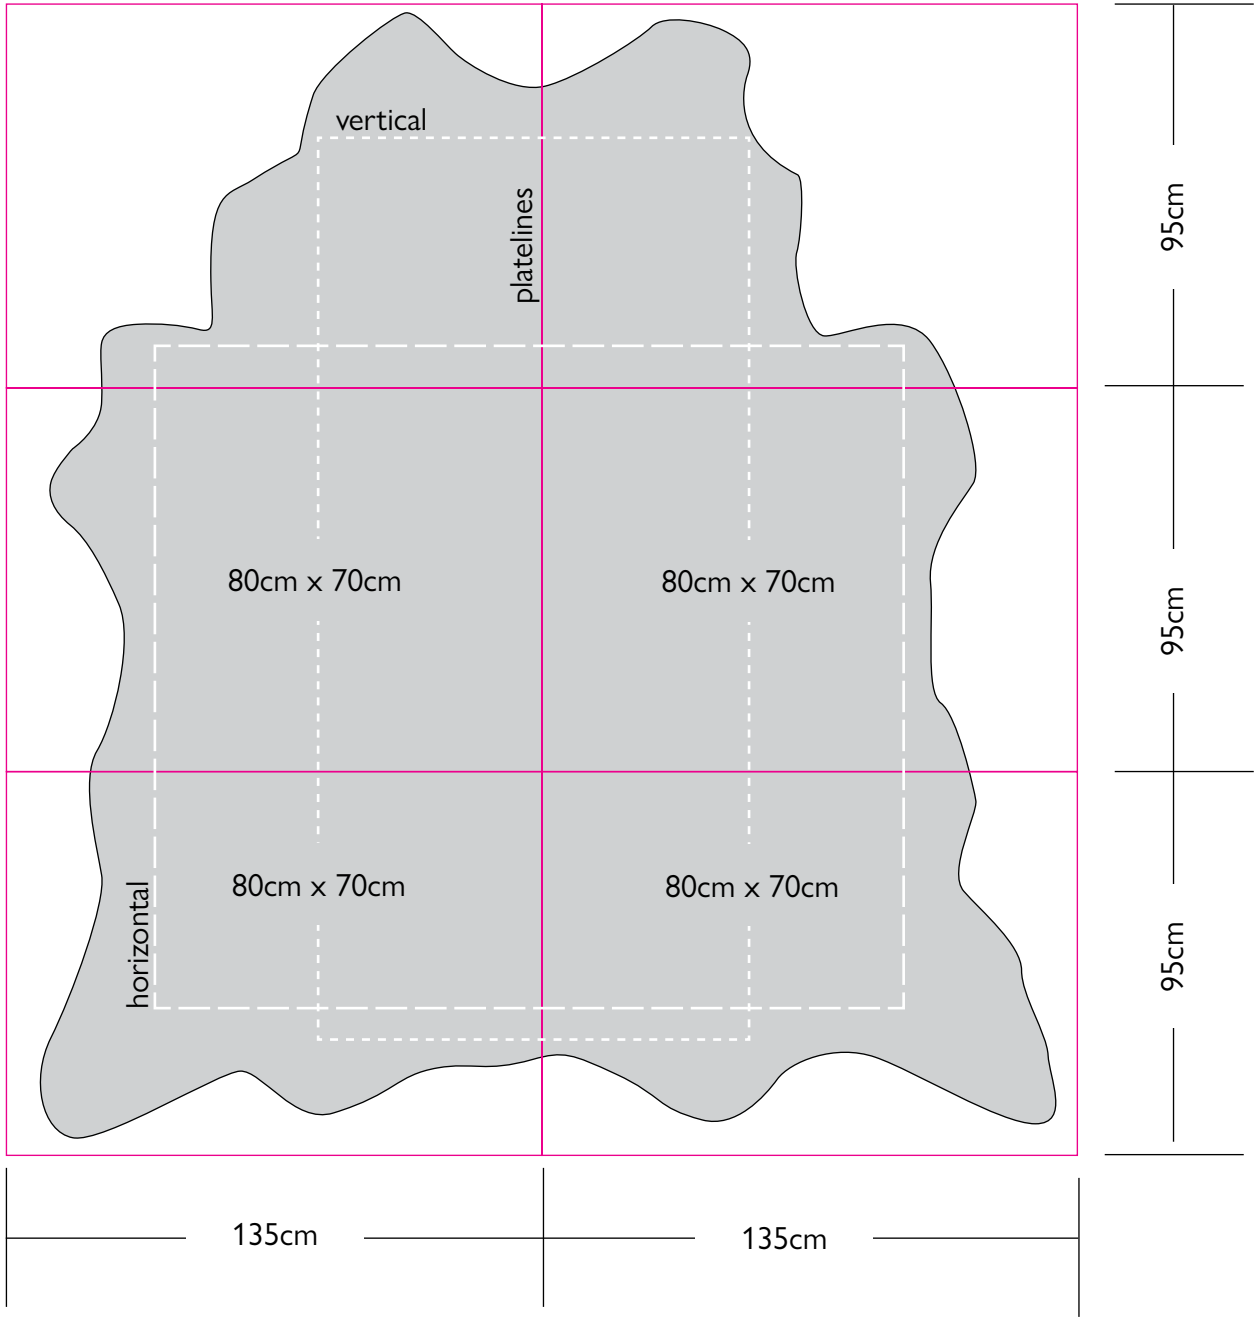

LEATHERS TO EMBOSS:

Almont	Levanto	Trento
Chamonix	Pamplona	Turoa
Colmar	Pueblo	Venice
